

# CLIMATE DOUBLE FEATURE

## Documentary film screening Tuesday 28 May 7pm

Room OGGB4, lowest level of the Owen G Glenn building, Auckland Uni  
Free entry. Koha appreciated.

**Start time 7 pm/Running time 73 mins**  
In recent years climate science has come under increasing attack, so geologist Simon Lamb took his camera to find out what is really going on from his climate science colleagues. Simon followed scientists at work in the Arctic, Antarctic, Southern Ocean, New Zealand, Europe and the USA. They talk about their work, and their hopes and fears, with a rare candour and directness. This creates an intimate portrait of the global community of researchers racing to understand our planet's changing climate.

**Start time: 8.30 pm/Running time 42 mins**  
Do The Math is about the rising movement in the United States to change the terrifying maths of the climate crisis and challenge the fossil fuel industry. While it is set in the United States, the maths the film outlines apply globally - making it important for all of us to watch. Featuring Bill McKibben of 350.org

Event hosted by:

**Auckland Coal Action**
